

NOUS Component Overview

AI Society maintains mean happiness 0.427 with wealth reaching 1362669.
Spatial Lab achieved 61.3% accuracy across 1080 tasks.
Distributed warehouse strategy beats centralized by +11.4 efficiency points.
AI Society produced 5 reports with success 100.0% analyzing 300 tests.

Average happiness 0.427 (range 0.3330.558); latest 0.333.

Average energy 0.539; latest 0.382.

Total wealth grew to 1362669 (avg 1396951).

Anomalies flagged: energy_drop (2)

Spatial AI Lab

Total tasks evaluated: 1080 across 2 categories.

Overall accuracy: 61.3%

Average latency: 5179.9 ms

Warehouse / Factory Coordination

Scenarios evaluated: 120 across 2 strategies.

Average success rate: 100.0%

Distributed coordination improves efficiency over centralized by 11.4 percentage points.

CloudVR PerfGuard Research

Research reports generated: 5 (success rate 100.0%).

Total VR test runs analyzed: 300 across 4 applications.

Average research quality score: 69.6

Total AI cost tracked: \$0.12.

Evolutionary Discovery

Evolution experiments executed: 22 (successes: 0).

Segments analyzed: 5, mean glow 0.774.
